

DHARANI GOPAL

Front End Developer

Ph: 9524815273 | Mail: dharanigl1008@gmail.com | linkedin.com/in/dharanigopal
Chennai, Tamilnadu

Profile

3+ years of front-end Developing experience in building impactful, scalable, high-performance, and user-friendly front-end web applications. Proficient in JavaScript, HTML, CSS, and React.js with expertise in architecting and optimizing frontend systems for performance and scalability. Founding engineer at Bizgam, fastest-growing auction and RFQ platform, with a proven track record of designing and deploying complex solutions. Experienced in leveraging tools like Cursor, GPT, and UX Pilot to accelerate development and boost efficiency.

Education

Master of Computer Application

Dr. Mahalingam College of Engineering and Technology

June 2018 - April 2020

Bachelor of Computer Science

Kongu Arts and Science College

June 2015 - April 2018

Work Experience

Front End Developer

Eucto

05/2025 - 05/2026

Tech Stack: ReactJs, ReduxToolkit, TailwindCSS

- Optimized page load times by implementing techniques such as code splitting, lazy loading, and efficient promise usage for parallel API calls, reducing load times from 2 seconds to 400 ms.
- Built a robust UI component library for the email builder tool, featuring 20+ reusable components encapsulating business and presentation logic, and developed a Previewer application for testing these components.
- Collaborated with product teams to align data models, interface contracts, and user feedback loops, ensuring consistent frontend behaviour and seamless backend integration.
- Designed and implemented a robust Feature flag system using React, and Redux, empowering tech and product teams to manage rollouts, run experiments, and toggle features in real-time - significantly improving development agility and release confidence.
- Developed frontend for Eucto verse interactive learning platform, employing techniques including Context API, Hooks, custom reusable components, and webpack to ensure peak performance and user engagement.
- Developed the frontend for the Eucto Campus School ERP System, implementing core modules like Student Attendance, Certificates, Notice Board, Ledger Summary, and Staff Management to streamline and centralize school operations.
- Took over the existing Chartely Portal, resolving UI/UX and performance issues, implementing robust error handling, and enhancing security by integrating Google reCAPTCHA for forms.

Work Experience

Front End Developer

Bizgam Ai Pvt Ltd

11/2021 - 08/2024

Tech Stack: Javascript, ReactJs, Redux

- Independently developed RFQ/Auction product of Effybuy from scratch, which includes two web portals and a resulting in a remarkable 40x increase in daily revenue within six months.
 - Independently developed and deployed a full-fledged website for the effybuy and kaizen utilizing ReactJS.
 - Developed Effybuy public-facing business website using React.js optimized for SEO, fast load times, and scalable content updates.
 - Utilized optimization techniques like lazy loading, pagination, caching, and memoization, while designing and implementing custom reusable components to enhance performance, user experience, and code scalability.
 - Experienced in building complex dynamic forms and implementing interactive features such as pagination and carousels to enhance user engagement and streamline frontend data management.
-

Additional Skills

Languages

Javascript, HTML, CSS, SQL

Libraries/Frameworks

Client - ReactJs, Tailwind, Material UI

Server - MySQL

Testing - Jest

Tools

GIT, VS Code
